ROUND HANDRAIL WORKSHEET AND QUOTE FORM

Name: _____ Quote/PO: _____

E-mail: _____ Phone: _____

Company: _____ Date: _____

Address: _____

Info

Round handrails are made of 1-1/2" stainless steel or bronze tubing, with #4 brushed or #8 polished finish. Standard handrails come with 5/16"-18 x 3-1/4" L studs, standard spacers, spacer washers, and required access to back side of cab wall for installation. Removable handrails are designed for installation from inside the cab, and use spacers with set screw. Toggle bolts recommended, can be purchased separately. All spacers, normally one spacer for every 2 feet of handrail, located per customer requirements. Please choose desired options and dimensions on drawing below or choose **different handrail worksheet**.

Note: Custom made orders are non-returnable. Please recheck before submitting.
